

SMART Notebook Software 10: A Feature Comparison Between Microsoft® Windows®, Mac OS and Linux® Operating Systems

SMART Notebook software 10 Service Pack 1 for Microsoft® Windows® and Mac OS X operating systems, and SMART Notebook software 10 for Linux® operating system with Ubuntu® LTS distribution support, are designed to work the same way in all three operating systems. However, differences in the operating systems require modifications to the features and functions. These differences are subject to change without notice.

Features and Functions	Windows Operating Systems	Mac OS X Operating System Software	Linux Operating Systems
